EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in the Remarks filed 01/23/2006.

The application, claims 56-58, has been amended as follows:

Regarding claim 56, the limitation:

“wherein the template has a limitation number for assignment of image data, and if it is determined that image data more than the limitation number of the template in the designation step are assigned to said template, remaining image data are assigned to a predetermined template and if binary data more than the limitation number of the predetermined template are assigned to the predetermined template, the predetermined template is newly generated, and the remaining binary data are assigned to the generated predetermined template.”

is now changed to:

“wherein the template has a limitation number for assignment of image data, and if it is determined that image data more than the limitation number of the template in the designation step are assigned to said template, remaining image data are assigned to a predetermined

template and if **image** data more than the limitation number of the predetermined template are assigned to the predetermined template, the predetermined template is newly generated, and the remaining **binary** data are assigned to the generated predetermined template.”

(emphasis added)

Regarding claim 57, the limitation:

“wherein the template has a limitation number for assignment of image data, and if it is determined that image data more than the limitation number of the template by the designation means are assigned to said template, remaining image data are assigned to a predetermined template, and if binary data more than the limitation number of the predetermined template are assigned to the predetermined template, the predetermined template is newly generated, and the remaining binary data are assigned to the generated predetermined template.”

is now changed to:

“wherein the template has a limitation number for assignment of image data, and if it is determined that image data more than the limitation number of the template by the designation means are assigned to said template, remaining image data are assigned to a predetermined template, and if **image** data more than the limitation number of the predetermined template are assigned to the predetermined template, the predetermined template is newly generated, and the remaining **image** data are assigned to the generated predetermined template.”

(emphasis added)

For claim 58, the limitation:

“wherein the template has a limitation number for assignment of image data, and if it is determined that image data more than the limitation number of the template by the designation process code are assigned to said template, remaining image data are assigned to a predetermined template, and if binary data more than the limitation number of the predetermined template are assigned to the predetermined template, the predetermined template is newly generated, and the remaining binary image data are assigned to the generated predetermined template.”

is now changed to:

“wherein the template has a limitation number for assignment of image data, and if it is determined that image data more than the limitation number of the template by the designation process code are assigned to said template, remaining image data are assigned to a predetermined template, and if **image** data more than the limitation number of the predetermined template are assigned to the predetermined template, the predetermined template is newly generated, and the remaining **image** data are assigned to the generated predetermined template.”
